PhoneGap

Senior Software Engineer
Express News, Karachi, Pakistan

October 2009 – April 2011

Worked on team to develop <http://tribune.com.pk> and <http://classifieds.tribune.com.pk> using PHP, MySQL, HTML, CSS and JavaScript. Developed mobile applications for Tribune website using PhoneGap (iPhone, Blackberry, Nokia and Android).

Senior Software Engineer
ePlanet Communications, Karachi, Pakistan

June 2009 – October 2009

Worked as a senior software engineer / team lead on different in-house websites. Primary responsibility includes development using PHP, MySQL, HTML, CSS and JavaScript. Worked closely with different stakeholders to collect requirement and resolve any miscommunication. Conducted research in order to implement best practices used in website development and provided training to junior developers.

Technology Team Lead
HireLabs Inc, Karachi, Pakistan

June 2008 – May 2009

I joined HireLabs when it was new startup company in Pakistan. I build and managed technology team, migrated existing code from India to Pakistan. Redesigned and developed website using PHP, MySQL, HTML, CSS and JavaScript. Participated in all phases of system development and communicated with all stakeholders in order to resolve any conflict. Prepared technical documentation for the use of new and revised applications.

Senior/Lead Software Engineer (Promoted from Jr. Developer)
Infinilogic Private Limited, Karachi, Pakistan

September 2003 – May 2008

Started my first job at Infinilogic as a Junior Developer. Developed and maintained in-house websites using PHP, MySQL, HTML, CSS and JavaScript. Worked as a team Lead and trained junior developers. Implemented XML gateway integration with Companies House (UK government company registration authority).
